SUMMARY

As a junior mobile developer and data Analyst, I am passionate about developing user-friendly mobile applications and data analysis. I am a quick learner and am always eager to expand my skillset to stay current with the latest industry trends and best practices. I have experience in different languages and technologies like java, python, C++ and flutter.

PROJECTS

Restuarant Mobile app

Ain Shams University • August 2022 – September 2022

- Responsible for making a A Prototype of the project and applied color theory to the elements and focused on the simplicity of the navigation in the app.
- Collaborated in The Implementation and functionality of the app, and focused on the performamance in compressing the images to consume less processing.
- Developed an efficient local database to store the order list of the customer so he can access the app in any time without any loss of the order.

EDUCATION

Bachelor in Computer Science

Minor in Data Analysis • Ain Shams • 2024

CERTIFICATIONS

Mobile Development using Java

Information Technology Institute • 2022

COURSEWORK

Operating Systems

Ain Shams University • 2023 • low level thinking

focus on enhancement of the speed of access of memory and minimize the storage

System Analysis and Design

Ain Shams University • 2023 • TeamWork

we shared ideas about the flow of the project and functionalities

Statistical Inference

Ain Shams University • 2022 • statistical thinking

applied visualization to get relation between the data and used ai methods to get a prediction from the data

SKILLS

Hard Skills: Python, OOP, C, Java, XML, Asp.net, C++, C#, Flutter, GetX, Bloc, Mobile Development, Restful Api, Git, SQL, R, Ui/Ux Design, Prototyping, Andriod Studio, DashBoards, power Bi, HTML, CSS, Javascript.

Soft Skills: LeaderShip, Communicate, Collaborate, Statistics, Eager Learn, Adaptable
